

SAIGA GALIL STYLE HANDGUARD

1. **Make sure your rifle is unloaded and ensure that there is no ammunition in the chamber.**
2. Take off the lower handguard by removing the two bolts holding it to the receiver and barrel.

3. Install your new handguard in the reverse order using the supplied bolt to hold the rear of the handguard in place. Also use the supplied metal retaining plate to clamp the front of the handguard to the barrel. Insert the top vented cover into the handguard. Note: The new handguard is designed to fit tighter than the original.
